Always install the load equalizer upstream of any existing multifunction control modules. Do not install a load equalizer between a module and the turn signals as this will overload the load equalizer. Overloading will damage the load equalizer and may create a fire hazard! INSTALLATION GUIDELINES.

Installation - Equalizer®

The Equal-i-zer hitch takes advantage of the steel-on-steel friction generated at these points to help reduce trailer sway. This added friction makes it much more difficult for the trailer to sway side-to-side while its being towed, as sometimes happens when you encounter a gust of wind or a passing semi.
